

# clinical assistant

Save time and improve patient outcomes before the day starts!

## HOW IT WORKS

Each afternoon, care teams receive personalized, daily digests in their inboxes to prepare for appointments the next day.

Patient-centered guidelines

Updates and changes for follow ups

Identifies care gaps to address

Add orders for upcoming visits

## BENEFITS

Focus less on paperwork and more on patients during visits.

**+33%**

Care teams who use Clinical Assistant show a **33% improvement** on closing care gaps over those who do not.

**+ 30 mins**

Clinical Assistant **saves each care team 30 minutes each day** on chart review to prepare for follow-up visits and conduct daily huddles.

**+ 11%**

Helps groups comply with PCMH requirements to **increase practice revenues by 11% a year** by addressing **care coordination, clinical decision support, and test tracking & follow-up** needs.

## ABOUT US

We are committed to making your lives less hectic

**Our clients use our solutions on a daily basis**

*Our Philadelphia based team is committed to streamlining and reinforcing best practices in primary care rather than disrupting our clients with alerts that give you more work to do. We go to great lengths to learn what works best for you!*
